Summary

As a Full-Stack web developer in Berlin with international business experience, I offer a unique combination of technical knowledge and global mindset. Passionate about continuous learning, I prioritize clean and scalable code while developing innovative solutions. With 4 years of experience and mastery in React, Vue, JavaScript, Node.JS, and MongoDB, I specialize in building dynamic web applications. My goal is to find new opportunities to work in a stimulating and supportive team environment.

Experience

Web Developer Examiz Analytics

03/2022 - 05/2024
Ireland (remote)

Managed maintenance, development of new pages and reports, implementation of logic and interfaces, and customization of filters and search including API integration. Collaborated with cross-functional teams to ensure seamless integration and user experience, while adhering to frontend development best practices and maintaining code quality standards. Stack: Vue.js, Vuex, Nuxt.js, Bootstrap, Axios.

Frontend Developer Upwork

02/2020 - 09/2022
USA/Europe (remote)

Accomplished the delivery of successful projects across diverse freelance platforms, with a primary emphasis on resolving bugs, optimizing code, and enhancing overall performance. With a keen attention to detail and a passion for innovation, I was constantly contributing to application improvements through active integration and feedback. Stack: Vue.js, React, JavaScript, TypeScript, SCSS.

Frontend Developer Professionalbridesearch

11/2021 - 02/2022
USA/Ukraine (hybrid)

As a front-end developer, spearheaded the conceptualization and implementation of applications and templates, meticulously tailoring logic and components to seamlessly integrate with diverse APIs, ensuring robust functionality and user satisfaction. Stack: React, Redux Toolkit, Tailwind, Axios

Support Specialist Odrex

09/2017 - 07/2021
Ukraine (office)

Education

Ironhack

2024

Full-Stack Development

Completed an intensive Fullstack Development course, specializing in MERN stack technologies, front-end frameworks like React.js, and essential back-end technologies including MongoDB and Node.js.

Hillel

2022

Frontend Development

Studied React and Redux to effectively build and manage complex user interfaces.
